Russellville, Arkansas
FOREWORD

The Arkansas Gazette has long been considered the prime source for information on the social, cultural, and political affairs of the people of the state of Arkansas. I have prepared this index with the hope that it will be valuable for students, historians, and other researchers who wish to follow the progress of Arkansas and her people as chronicled by the Arkansas Gazette.

This issue marks the beginning of the Arkansas Gazette Index in its new computerized format. The new format is a drastic change, physically, from the previous two-column layout, but represents few policy changes.

Computerization would not have been possible had it not been for the splendid cooperation of a number of persons and agencies. I am especially grateful to State Librarian John A. Murphey and Frances Nix, Associate Director of Library Development, Arkansas State Library as well as Katharine Keathley, Director, and Hugh Silkerson, Board Chairman of Arkansas River Valley Regional Library.

Mr Austin Smith, F&S Microsystems served as computer consultant and guided us through the selection of hardware, software and program development. Mr Smith's knowledge of computers and of bibliographic control in libraries made his services especially valuable to me. Neither Mr Smith nor any other consultant is responsible for errors in this, our first effort at computerization.

Grateful thanks are also due W. A. Vaughn, Director of Libraries at Arkansas Tech, who conceived the idea of computerizing the Arkansas Gazette Index and convinced me that it should be done. Mr Vaughn's efforts
to secure funding for the project never lagged until the finished product was in hand. Appreciation is also expressed to Wilma Labahn, Technical Services Librarian, who assured me that the microcomputer would be a real asset to the project, then sat down at the keyboard to prove it. Only a true friend and a real professional would have the patience to teach me as Mrs Labahn did.

Shannon J. Henderson
Associate Librarian
Arkansas Tech University
HOW TO USE THE ARKANSAS GAZETTE INDEX

The Arkansas Gazette Index consists of brief summarizing statements of the news of Arkansas as it was published in the final edition of the Arkansas Gazette. Only those articles dealing with Arkansas people, places and events are considered for inclusion. Material not considered useful for future reference is omitted. Routine articles reporting on sports, social events and business activities are omitted.

HEADINGS: Subject headings (entries) are the main type of entry and are used whenever possible. Names of prominent persons and of firms and organizations are used as entries, but most names are cross-referenced to subjects.

Arrangement of Entries: All subject headings (entries) are arranged alphabetically, word-by-word. (Old Washington comes before Oldham in this arrangement). Abbreviated entries are alphabetized as if they were words, and are not filed at the beginning of the letter. (PCBs is filed after Payne and before Pea Ridge).

ENTRIES: Most articles are assigned only one subject heading, with cross references used to lead from related subjects included. Summaries or descriptive phrases are kept as short as possible, and are not intended to indicate that the only material in the article is that described in the summary. Length of the summary should not be taken as an indication of the length of the article. All entries under headings and subheadings appear in chronological order.

LOCATION SYMBOLS: Each summary is followed by the date, section, page and column number where the article appeared in the final edition of the Arkansas Gazette. (09/20/80/02/3 indicates that the article was published on September 20, 1880, page 2, in column 3).

CROSS-REFERENCES: All cross-references are arranged in alphabetical order and are listed before the summaries.

A cross reference from a person's name to a subject does not indicate if the named person is directly involved or is merely commenting on the topic. In all cases, the article should be read for clarification of this point.
