HOW TO USE THE ARKANSAS GAZETTE INDEX

The Arkansas Gazette Index consists of brief summarizing statements of the news of Arkansas as it was published in the final edition of the Arkansas Gazette. Only those articles dealing with Arkansas people, places and events are considered for inclusion. Material not considered useful for future reference is omitted. Routine articles reporting on sports, social events and business activities are omitted.

HEADINGS: Subject headings (entries) are the main type of entry and are used whenever possible. Names of prominent persons and of firms and organizations are used as entries, but most names are cross-referenced to subjects.

Arrangement of Entries: All subject headings (entries) are arranged alphabetically, word-by-word. (Old Washington comes before Oldham in this arrangement). Abbreviated entries are alphabetized as if they were words, and are not filed at the beginning of the letter. (PCBs is filed after Payne and before Pea Ridge).

ENTRIES: Most articles are assigned only one subject heading, with cross references used to lead from related subjects included. Summaries or descriptive phrases are kept as short as possible, and are not intended to indicate that the only material in the article is that described in the summary. Length of the summary should not be taken as an indication of the length of the article. All entries under headings and subheadings appear in chronological order.

LOCATION SYMBOLS: Each summary is followed by the date, section, page and column number where the article appeared in the final edition of the Arkansas Gazette. (09/20/83 02 3 indicates that the article was published on September 20, 1883, page 2, in column 3).

CROSS-REFERENCES: All cross-references are arranged in alphabetical order and are listed before the summaries.

A cross reference from a person's name to a subject does not indicate if the named person is directly involved or is merely commenting on the topic. In all cases, the article should be read for clarification of this point.
