ARKANSAS GAZETTE INDEX

An

Arkansas Index

1889

By

Shannon J. Henderson
HOW TO USE THE ARKANSAS GAZETTE INDEX

The Arkansas Gazette Index consists of brief summarizing statements of the news of Arkansas as it was published in the final edition of the Arkansas Gazette. Only those articles dealing with Arkansas people, places and events are considered for inclusion. Material not considered useful for future reference is omitted. Routine articles reporting on sports, social events and business activities are omitted.

HEADINGS

Subject headings (entries) are the main type of entry and are used when possible. Names of prominent persons and of firms and organizations are used as entries, but most names are cross-referenced to subjects.

All subject headings (entries) are arranged alphabetically, word-by-word.

Example: Old Washington
           Oldham

Use of commas in subject headings result in an unusual filing system since the computer considers them when arranging entries that are identical up to the comma.

Example: Henderson Farms
         Henderson State
         Henderson, Arthur
         Henderson, Shannon Elizabeth

Abbreviations used as subject headings are arranged alphabetically as if they were words.

Example: Payne
         -PCBs
         Pea Ridge

Cross references are arranged in alphabetical order and are listed before summaries of articles under that same heading.

LOCATION SYMBOLS

Each summary is followed by the month, day, year, page, and column number where the article appeared in the Final Edition of the Arkansas Gazette.

Reference from a person's name to a subject does not indicate if the named person is directly involved or is merely commenting on the topic. In all cases, the article should be read for clarification of this point.
