ARKANSAS GAZETTE
INDEX

1974

Compiled by
Shannon J. Henderson
Arkansas Polytechnic College
Russellville, Arkansas
FOREWORD

Indexing of the Arkansas Gazette was initiated at the Library of Arkansas Polytechnic College in September 1964 because of a need for such a service for the use of our students and faculty. The indexing is done daily, with entries typed on cards and entered in the index files. At the end of the calendar year, the cards are edited and typed in manuscript form.

All of the members of the Library have been of assistance to me in the preparation of the 1974 edition. Mr. William A. Vaughn, librarian, has generously provided all needed materials to make the work easier and has always been encouraging in my efforts. Mrs. Wilma (Fields) Labahn and Mrs. Miriam Cook have assisted me in establishing subject headings. Mrs. Virginia Stumbaugh has been responsible for typing the daily entries and much of the finished manuscript. Mrs. Bettie Dickerson is responsible for copying the manuscript for distribution to our subscribers. Mrs. Mary Frazier handles the details of orders and shipping. Miss Joyce McCain deserves special thanks for seeing that a copy of the Arkansas Gazette is on my desk each morning.

All of the library staff have my thanks for spotting errors in the card file and bringing them to my attention; they are responsible for none of the errors which, no doubt, are in the finished index.

Shannon J. Henderson
Associate Librarian
Arkansas Polytechnic College
Russellville, Arkansas
HEADINGS: Entries are made under subjects, personal names and organizations. Specific subjects have been used as much as possible, with cross references from more general headings.

ALPHABETIZATION: Subject entries are arranged alphabetically, word-by-word. Abbreviations are entered alphabetically as though they were considered a word as written. Names beginning with "Mac" and "Mc" are arranged as spelled.

Citations are arranged chronologically for practically all entries.

SUBDIVISIONS: Entries are subdivided whenever the amount of material or the nature of the entry permits. Subdivisions are arranged alphabetically regardless of type of entry. Subheadings are underlined to make them easier to locate.

ENTRIES: The index is concerned primarily with materials about Arkansas people, events, and places. Materials not fitting this category are omitted unless they are deemed to be materials which may not be indexed by such other indexing services as The New York Times, but which experience has shown will likely be of continuing interest to students of Arkansas. A news story or feature is seldom entered under more than one heading, but cross-references are used to lead the user to the proper entry. In order to get more nearly complete retrieval of materials on a subject, it is necessary to follow through on all cross-references under each subject.

CROSS-REFERENCES: Cross-references are arranged in alphabetical order preceding the entries under the main subject heading. Thus, cross-references precede sub-divisions under that subject.

BOOK REVIEWS: Book reviews are entered under the subject, Books. Reviews are confined to publications by Arkansas authors or those with Arkansas setting or subject matter.

SAMPLE ENTRY: Insurance, Automobile
Arkansas
Bumpers urges premium cut
Ja 17,2A:5

This article appeared in the Arkansas Gazette on January 17, and is found on page 2 of Section A in column 5.
Neither the subject under which articles are entered nor the wording of the entries should be interpreted as factual statements about the person or event being indexed. These headings are merely aids to location of the articles, and the newspaper should always be consulted for the story as it appeared in print.
