ARKANSAS DEMOCRAT-GAZETTE INDEX
AN ARKANSAS INDEX

January - June
1993

BY
WILMA LABAHN
The Arkansas Democrat-Gazette Index consists of brief summarizing statements of the news of Arkansas as it was published in the final edition of the Arkansas Democrat-Gazette. Only those articles dealing with Arkansas people, places and events are considered for inclusion. Material not considered useful for future reference is omitted. Obituaries are included only in exceptional circumstances. Routine articles reporting on sports, social events and business activities are omitted.

HEADINGS

Subject headings (entries) are the main type of entry and are used when possible. Names of prominent persons and of firms and organizations are used as entries, but most names are cross-referenced to subjects.

All subject headings (entries) are arranged alphabetically, word-by-word.

Example: Old Washington
Oldham

Use of commas in subject headings results in an unusual filing system since the computer software considers them when arranging entries that are identical up to the comma.

Example: Harris, Summer Michelle
Henderson Farms
Henderson State University
Henderson, John David
Henderson, Shannon Elizabeth

Abbreviations used as subject headings are arranged alphabetically as if they were words.

Example: Payne
PCBs
Pea Ridge

Cross references are listed before summaries of articles under that same heading. These references may refer to entries throughout the calendar year, even when more than one physical volume is published for the year.

LOCATION SYMBOLS

Each summary is followed by the month, day, year, page and column number where the article appeared in the final (city) edition of the Arkansas Democrat-Gazette.

Reference from a person's name to a subject does not indicate whether the named person is directly involved or is merely commenting on the topic. In all cases the article should be read for clarification of this point.
