ACTIVITIES
Arkansas Polytechnic College has two student publications. The Tuba Agricola is a bi-weekly newspaper which plays an important part in moulding student opinion and in keeping those on the campus familiar with all the happenings around the institution. The Agricola is the yearbook of the institution. It follows the general theme of college annuals, and in former years has ranked with the best in the state.

The staffs for the two publications are selected from the student body. The general practice is to elect the editor and business manager for each of the publications by popular vote. These with the assistance of the faculty committee on student publications select the other members of the staffs. Those selected are usually voted on by the student body at which time an opportunity is given for other nominees.

Arkansas Tech is fortunate in being able to get its printing done by a home town company. The Russellville Printing Company has done the printing for both college publications since they were first started, and their work has always been above reproach. Arkansas Tech students believe in keeping Arkansas money in Arkansas. Therefore, the engraving contract for the annual has been let for several years to the Peerless Engraving Company of Little Rock. Their work has also been very satisfactory, and they are able to render unusual service, because they are so near. Reid’s Studio of Russellville has done the photography work for the annual for the last several years. Mr. Reid has always co-operated willingly with the annual staffs, and he has done everything in his power to make the Agricola a success.

The method of financing the Tuba Agricola this year has been different to that of former years. Students have subscribed for the paper this year when they paid their student activity fees at the beginning of each semester. The annuals are sold for cash, but students have the privilege of signing over their breakage fees to the Agricola staff for an annual. This fee is required of all students when they enter school, but it is returned at the end of the year, if nothing has been charged to the student.

The staffs of the two publications receive a great deal of financial aid from business houses which buy advertising space. The publications could not possibly be kept up to their present standards if the staffs did not receive this co-operation. The business men of Russellville are to be given a great deal of the credit for the success of the paper and of the annual. A number of Little Rock business concerns also aid materially in the publication of the annual through this mode of cooperation.

CARROLL BUFFINGTON . . . . Advertising Manager
JOE GOODWIN . . . . . . . Assistant Advertising Manager
RICHARD DuVALL . . . . . . Circulation Manager
One of the most looked-forward-to events of the Arkansas Tech college year is the annual Dad's Day and Homecoming. The first one of these days was held in 1924. Since that time the event has grown in popularity each year. At the last Dad's Day more than one hundred dads visited the college beside a large number of mothers and former students. This is the one day in which dads are given the honor they are justly due, and at the same time they are given an opportunity to inspect the work of the institution in which their sons or daughters are studying.

The programs for Dad's Days are arranged just as nearly as the dads would have them as possible. Classroom work is continued in the forenoon, and the dads are given an opportunity to listen on the instructions being given to their sons or daughters. A convocation is held for one hour in the chapel hall just before lunch. At this time a varied program is given in which dads, students and faculty members take part.

One important feature of every Dad's Day is the football game. It is at these games that many dads see their sons playing football for the first time. That the sons realize that they are being watched is shown by the fact that a Dad's Day football game has never been lost. In fact the Wonder Boys have never had their goal line crossed in a Dad's Day football game, although they have met in the four years on these occasions the Tennessee Doctors, Oglethorpe University, Lombard College, and the State Teachers College.

Dad's Day has now become a tradition at Arkansas Polytechnic College and it is with a great deal of feeling that the student body sings on that day:

This is the day we've been longing to see,
When from all work and all classes we're free.
Just to be with you this day of all days,
When on this Dad's Day our voices we raise—
    Just hear us!
Gee! but we're glad you're here today,
This day of all days.
Our hearts with love and joy overflows—
Our voices sing your praise.
To you we owe all we have while we're here,
To you we'll give all our best, father, dear—
God bless you!
Gee! but we're glad you're here today,
This day of all days.
AUGUST

On August 29, after a few weeks of inactivity, our Alma Mater began to show signs of life when about four hundred students from all parts of the state appeared on the campus. The old students found six new faculty members, and the new students found more than that which was new to them.

SEPTEMBER

This month saw the Wonder Boys working hard to get into form for their first test. Dr. Grant went to Canyon, Texas, during the month to give a series of lectures at the West Texas State Teachers' Association. The coaches got a line up on some of their new football material in a second team game with Beebe which Tech won 32 to 0.

OCTOBER

This was the month of disappointments for football fans of Arkansas Tech. After the Wonder Boys had taken a hard fought game from Tahlequah, they lost to the Osteopaths, Hendrix and Ouachita. However, the same month saw the Wonder Boys stage a wonderful come-back to hold the powerful Oklahoma Baptist University eleven to a scoreless tie at Fort Smith.

NOVEMBER

The Wonder Boys hit their old time form in November and showed all of their opponents that they could be "down" but never "out". The Ada, Oklahoma, Teachers were defeated 12 to 6, and the Arkansas Teachers met the same fate with the exception that they did not put over the one touchdown. The Wonder Boys played the greatest game of the season on Dad's Day to defeat Lombard College. On the following week the Little Rock College Eagles fell before Coaches Brown and Tucker's driving machine 28 to 0.

DECEMBER

With the termination of the football season, Arkansas Tech began to work earnestly to develop a basket ball team. Prof. J. B. Stevenson was honored by being elected to membership in the American Chemistry Society. The air around the college held a "solemn stillness" during the last few days of the month after everyone had gone home for the holidays.

JANUARY

The second semester started January 3 with a larger enrollment than the first semester had had. The basket ball season opened with victories over Harding and a loss to College of the Ozarks. The Tech girls lost a hotly contested basket ball game to the championship State Teachers' College sextet by a narrow margin.

FEBRUARY

The basket ball team divided a four game series with the State Teachers. The two glee clubs and the orchestra gave a concert in Clarksville as a part on the Missouri Pacific Boosters Club program. The Tech cagers won two games from Magnolia.

MARCH

This month saw much activity around the college. The district basket ball tournament for high schools was held in the National Guard Armory court. The county track meet was held on Buerkle field, and a warmly contested checker tournament was held at the College Delicatessen. Prof. G. R. Turrentine was honored with membership in Pi Gamma Mu, the national social science honor society.
WHO'S WHO

This is the second year that the Who's Who section has been included in the Agricola. It proved so popular last year, that it was decided to make it a permanent feature of the annual.

The selections this year were made on a little different plan to that followed last year. However, the same plan as to the withholding of the names of those selected until the distribution of the annuals has been followed. The beauties were elected by popular vote with the entire student body participating. The run-off election was held and the results were tabulated by a committee approved by the president. The six girls receiving the largest number of votes were voted on in the final election and the two who received the most votes in this election won places in the Agricola. The Dad's Day queen was elected on the same plan that has been followed for several years, that of popular vote of the student body.

The leaders in scholarship, publications, athletics, and activities were selected by the faculty committees in charge of each of these phases of college activity. For example, the committee on student publications selected the leaders in publications and the scholarship committee selected the outstanding scholars, etc. It is believed that in this way, more impartial judging is obtained than if students assist with the selecting.

The different committees believed that they were selecting the leaders, and it is hoped that the student body will agree with most of the selections at least.
Pearl Harkins
Beauty
Geneva Carpenter
Beauty
Inez Graham
Dad’s Day Queen
ELYEN SPENCER
Athletics
An outstanding star on the gridiron, court, track, and diamond.

ZONA HATCHETT
Scholarship
A leader in each of her classes throughout the year.

CLYDE CURTIS
Scholarship
Making "A's" has been his hobby for the last two years.

MARTIN MILLARD
Scholarship
Has taken the lead in the classroom in his freshman year.

CARROLL BUFFINGTON
Activities, Publications
An organization leader and a real advertising manager for the paper.

MURIEL NEMECEK
Athletics
A broken shoulder could not stop this boy's line-plunging.
MARVIN HURLEY
Publications, Scholarship, Activities
Journalist, scholar, and public speaker combined.

DOROTHY GREENE
Activities
President of the Y. W. C. A. and active in many clubs.

HERBERT BLAIR
Activities, Scholarship
Qualities of leadership have won him many offices.

VIRGIL HIGHFILL
Publications, Activities
Editor of the Tuba Agri-colae and a leader in several organizations.

RUSSELL LIPE
Athletics
A star in track, basketball, baseball, and a promising football man.

SID WATSON
Athletics
Captain of this year's basket ball team and a star half-miler.
JIM WHITE  
Publications  
Business manager of this year's annual and of last year's paper.

SAM B. MANES  
Publications  
A member of both the paper and annual staffs who is not afraid of work.

BRINKLEY BUSHMIAER  
Athletics  
Captain-elect of the football team and all-state halfback last year.

MYRTLE ROUSH  
Activities  
A worker in Y. W. C. A. and president of the Pie-rian Club.

VIVA MAE TURRENTINE  
Scholarship  
Personality combined with ability in the classroom make her a favorite.

FLORINE EVANS  
Publications  
She has been a valuable member on the Tuba Agri-colae staff.
