1934
We take this opportunity to give a few of our reflections of the 1934 Agricola.

We have chosen agriculture for the theme of the opening section, mainly because there has never been an Agricola dedicated to farming.

We have tried to make the book a popular one with the students, endeavoring to catch the high spots of student life during the year.

To give a little credit where much is due, we wish to thank the efficient and hard working staff for their efforts, Reid Studio, Teachenor-Bartberger Engraving Company, the Russellville Printing Company for their cooperation in bringing the book to you as soon as possible. We hope it meets with your approval.

Singing its "swan song" this year, the Tuba Agricolae has nevertheless given impetus to the future student paper. During its final year of existence, the Tuba Agricolae was published in a larger size than it has ever been before. Added journalistic interest and cooperation created by the journalism department which was started this year by Alfred J. Crabaugh, and the excellent work of the business staff in securing more national advertising than any other college paper in the state were the chief reasons for the paper's enlargement.

The paper's service to the student body has grown as the college has grown, and is a vital part of the life of the college student. It should be continued in its present size, but under existing conditions is working under harassing uncertainty. The publication fee for the paper should be raised slightly, and local advertising must pick up.

Three members of last year's state championship debate team reported for try-outs when Crabaugh issued his first call for candidates.

The question for debate this year was, "Resolved, That the United States should adopt the essential features of the British system of radio control and operation," Williams and McGinnis upheld the affirmative and Bratton and Hollabaugh the negative.

The state meet was held at the University this year, May 11, and the team debated once before the meet, that being in chapel on Wednesday before the meet on Friday.

The team suffered the loss of Lance, a member of last year's team, when he was hurt in an automobile accident to the extent that he was forced to withdraw from school.
The purpose of the Arkansas Tech Y. W. C. A. is stated as follows: We, the members of the Young Women's Christian Association of Arkansas Polytechnic College unit in the desire to realize full and creative life through a growing knowledge of God. We determine to have a part in making this life possible for all people. In this task we seek to understand Jesus and to follow Him.

1934
The Agri Club is one of the oldest clubs on the campus, having been organized in 1922. The club meets twice a month, sponsoring social and educational programs, so planned that they will stimulate original thought and initiative. The two out of club speakers for this year were Mr. Howard Newton of the Blue Valley Creamery, and Mr. W. R. Daniels, County Agricultural Agent of Pope County.

This group fully appreciates the value of agriculture to the nation and by work in the club seeks to develop a loyalty to this chosen vocation.

Membership is voluntary and is open only to those enrolled in the agriculture department.

The History Club, organized four years ago, has as its main project, the collecting of material for a museum. The size of the collection now on display in the Main Building is evidence of the success thus far attained. The club is composed of history students who meet bi-monthly at home of the sponsor, Professor T. A. DuLaney, to discuss current and historical events. Each year a banquet is held for former members on homecoming day; also trips are made to Dwight’s Mission and Subiaco College.

The Club known as "Le Cercle Francais", is composed of students who have had one semester in French. Its aim is to create a greater interest in the study of French; to awaken a general appreciation of the practical and cultural value of the language; to create a sympathy for the people who speak it; and thus to promote an international viewpoint.

The Engineer's Club was organized in 1928 by H. W. Dean, then head of the Engineering Department.

The purpose of the club is to stimulate interest and create a questioning attitude, on the part of its members, along the lines of Engineering endeavor.

The requirements for membership to the club are as follows: the student must have a grade average of C or above in all work, ten hours of which apply toward an engineering degree.

Beginning with the year 1934 the Engineering Department has St. Patrick's Day set aside as Engineer's Day at Tech. The club will be held responsible for the success of this day as it is the only organization on the campus representing the department.

The Masquers, sponsored by Miss Cox, head of the Dramatic Art Department, enjoyed a successful year. The club is comparatively new on the campus, being organized last year, and is growing rapidly. Club members consist of Dramatic Art students, and other talented persons who are interested in a study of the legitimate stage and the drama. The club not only presents plays, recitals, and other programs but its regular meetings consist of studies of stage-craft, theatre art, great dramatists, and other forms of entertainment.

The Science Club is composed of students who are interested in extending their knowledge of scientific phenomena. The club holds bi-monthly meetings, in which scientific programs are presented and matters of scientific interest are discussed. At least one social, usually in the form of a picnic, is held each semester. Requirements for membership are four hours of science with an average of "B".

AGRICOLA

F. F. A.
Arkansas Tech College Chapter No. 1

For several years Arkansas Polytechnic College has offered work suitable for Agriculture students. Many of the students pursuing courses in agriculture came from Vocational Agricultural High Schools of the State, which had offered training in F. F. A. work. In order to provide for further training in F. F. A. activities the students of the Vocational Methods class organized the first College F. F. A. chapter at Arkansas Tech in the Fall of 1930. The chapter has been fortunate in having among its membership some of the highest ranking students in the State of Arkansas.

Organized seven years ago by Bessie T. Parker, it is the only organized club in the dormitories. All girls living in Parker Hall are eligible.

The club was organized for the purpose of promoting fellowship, friendship, loyalty, and better spirit within the dormitory.

Meetings are held twice a month in the parlor of Parker Hall with all members participating.

Top: Campbell, Jackman, Stutts, Nelson, Clark, Matlock, Deason.
Center: Sugg, West, Gill, Langdoc, Ruthven, Wallace, Tindall.
The Pre-Law Club was organized this year by a group of students with a primary interest in the study of Law as a profession. Eleven men met, made a constitution, asked for recognition, and were recognized; now the members number twenty-two.

The club meets twice a month and has as its sponsor Judge A. B. Priddy. At each meeting there is at least one local member of the bar to appear on the program.

The Home Ec. Club of Arkansas Tech has as its objects: To stimulate interest in the art of homemaking; to enable people of talent to be brought before the organization; to inform girls of the opportunities offered by Home Economics as a profession; to establish a bond of friendship among girls taking the same kind of work; and to offer an opportunity for the girls in the department to show the people of the community their activities.

The Pen and Ink Club is a club of students interested in creative writing. Meeting programs consist of original contributions which are criticised constructively by club members, and the sponsor, Alfred J. Crabaugh, head of the College Department of English.

The club is one of the outstanding groups on the campus, and ranks high scholastically. Outstanding contributions of club members are being saved by the club.
